• PROFILE

I'm a Furnish Incharge with 16+ years of experience in the steel industry. I specialize in managing furnace operations, optimizing production processes, and ensuring adherence to safety standards. With expertise in advanced furnace technologies, I focus on improving efficiency and maintaining high-quality output. My extensive experience allows me to effectively oversee operations and contribute to continuous process improvements, ensuring smooth and productive workflows in the steel sector.

• WORK EXPERIENCE

• ROLES AND RESPONSIBILITIES

- Oversee the operations of the shift, ensuring smooth workflow and adherence to schedules. Assign tasks to team members and ensure they understand their responsibilities.
- Monitor employee performance and provide feedback as necessary. Handle any issues or conflicts that arise during the shift.
- Enforce safety protocols and procedures to ensure a safe working environment. Conduct regular safety inspections and address any hazards or violations promptly.
- Train employees on safety protocols and emergency procedures. Respond to accidents or emergencies and initiate appropriate action.
- Ensure that products or services meet quality standards. Conduct quality checks at various stages of production or service delivery. Address any quality issues or deviations from standards.
- Monitor inventory levels and coordinate with relevant departments for replenishment. Conduct inventory audits to reconcile stock levels and identify discrepancies.
- Maintain shift records, including attendance, production reports, and incident logs. Prepare shift reports summarizing key metrics, issues, and accomplishments.
